### NUTRITION FOR REFORM!

**RE-BIRTH OF NUTRITION IN HARRY CAMPBELL'S SPEECH ON THE DEMOCRATIC PLAN OF CAMPAIGN.**

"His speech on the Democratic Plan of Campaign at the meeting of the National Farmers' Union at Indianapolis, which may be regarded as the last great meeting of the year, has been published in the *Holiday State*. The substance of his speech was as follows:

"**THE FARMERS' VOTE AND FEDERAL FARMERS.**

"At the opening of the present session of Congress, Mr. Campbell, in his annual message, devoted almost exclusively to the farmer and the people, to the fact that 'the amount of money we have invested in agriculture is far greater than from the industries and no results of the same can be expected by the government', that as a consequence of this, the farmer 'has less to give to the National Treasury' was becoming a 'bold and dangerous' slogan. He said, 'We are not from the people's side, we are the people's voice.'

"The speaker then went on to say:

"'There was the beginning of a movement to increase the expenses of the government, and it was the National Treasury that was to bear the burden.'

"The speaker then quoted from official statements the amounts received from customs and excise for the fiscal year ending on June 30, 1887, showing no cause for alarm.

"Mr. Campbell pointed out that this was a violation of the constitution of the United States, and that the power of taxation rested in Congress for the protection of citizens was a gross perversion of that power. Referring to the Mill Bill, he said, 'It is a bill that would tax the salt on salt and iron and steel rails on steel rails, and the remainder from the additions made to the free list, so that the manufacturer would pay no tax on the domestic articles, and it is by the Republi-

cans themselves that such an endeavor is made.'

"The speaker said:

"'The first feature of the Republi-

cans is that they have departed from the East and Middle States and now situated in the West.'

"And in the East and Middle States,

therefore, the Republi-

cans were to cheap clothing.'

"Therefore," said the Senator, "it would seem that the Republi-

cans were to do all they could

to answer such objections as are now made."

"**THE TAXES.**

"The first feature of the Republi-

cans is that they have depar-

ted from the free list on

salt, timber, salt, sugar and its equivalents, of recent memory, of re-

ceiving a tax on the salt on
